

We are a non-profit society affiliated to the American Orchid Society, founded in 1962 dedicated to:

- Provide opportunities to appreciate the beauty of the many varieties,
- Promote the wider cultivation and propagation of orchids by practical demonstration and extending knowledge,
- Particularly also promote knowledge of their ecological requirements,
- Provide a forum for disseminating research results and the latest taxonomical thinking and
- Promote fellowship amongst those interested in orchids.

We publish a monthly newsletter and a website.  
We hold various society activities including field trip(s), officer installation dinner, displays and/or shows, visits to member and vendor greenhouses, surrounding shows and nurseries, picnics at members' homes, yard sales, etc.  
The Society has an extensive library for member use.  
Do come visit and see what we have to offer you.
